Unique power, data and specialty gas service utility modules

Designed and manufactured in Camarillo, California 🇺🇸

www.HANSONLAB.com | Camarillo, CA | 805-498-3121

Features:

- Choices for AC power, RJ45 ethernet, specialty gases, USB power, isolated/multiple circuits and dedicated emergency power
- Can be tailored for your specific needs and pre-installed into your new-build HLS table frame, resulting in a clean, uncompromised work center
- Exclusive design distributes power and services vertically, for the most efficient use of the workspace
- Extruded aluminum-alloy housing with clear anodized finish delivers superior durability and aesthetics
- Certified to UL and CSA standards

Design for your application:

- To configure an HLS Service Hub (SH) module for your specific requirements, begin by selecting a faceplate type (visit the [HLS website](#) to see the available options, and download a cut-sheet).
- Next, configure the component details of your SH module by referencing the table on the HLS cut-sheet for your specific faceplate type and configuration.
- Finally, identify your specific SH part number based on the part numbering key at the bottom of the cut-sheet reference page.
